

Corporate Office in Appleton

This project showcases several modern office and co-working areas. These spaces include open plan workspaces, private meeting rooms with industrial glass walls, and communal areas.

Project Goals:

- **Collaborative Workspaces:** Expansion of their current office space to accommodate employee growth through an open design plan to foster collaboration within each team
- **Privacy Solutions:** Create banks of meeting rooms & private offices with adjustable glass partitions for privacy within an open footprint
- **Ergonomics & Aesthetics:** Select ergonomics & design oriented furniture and to enhance overall vision & productivity

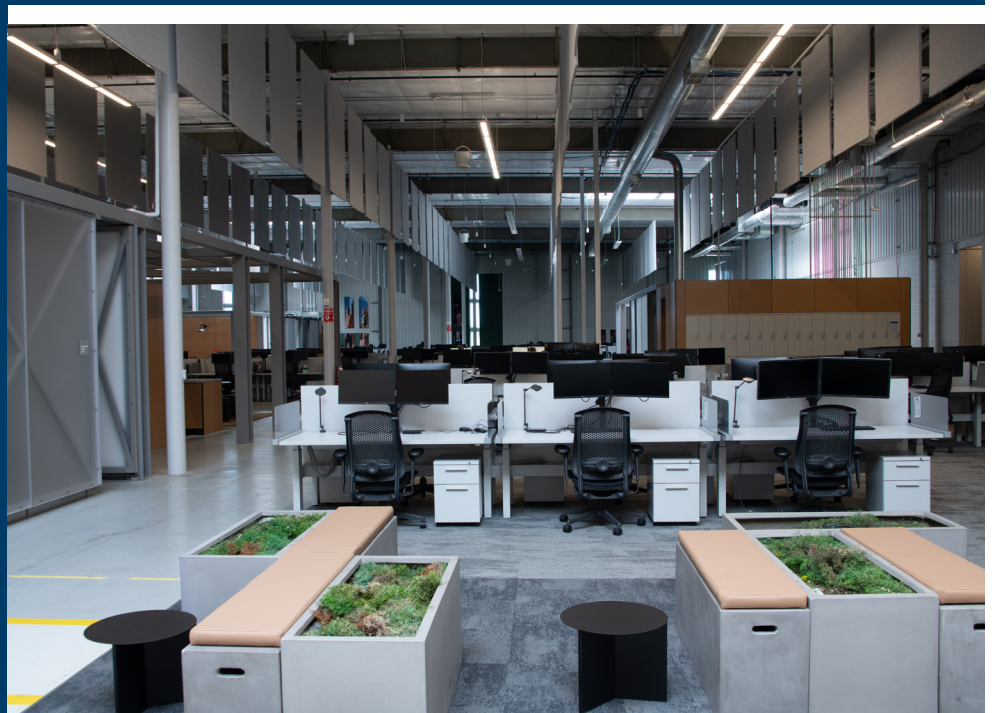

Project Completion: 2020
