

Ted and Grace Bachhuber Memorial Library

BSI, in collaboration with Zimmerman Architects and Findorff, delivered the design and installation for furniture, signage, and AV systems for the new Ted and Grace Bachhuber Memorial Library. This modern, standalone facility includes glass-front study rooms, a fireplace lounge, dedicated children's and teen areas, and versatile community spaces. The library serves as a central, inclusive space for the community.

Project Goals:

- Enhance Community Engagement
- Provide Versatile Spaces
- Foster Comfort and Accessibility
- Support Seamless Integration
- Create a Community Gathering Place

Project Completion: 2023

BSI Services:

- Furniture Design Support with Zimmerman Architects
- Furniture Installation
- Specialty Construction - Signage
- Installation
- Audio Visual Integration
- Project Management

Integrated Concepts:

- **Seamless Space Design:** The library layout incorporates glass-front study rooms, an inviting fireplace lounge, and flexible community spaces that promote interaction and engagement.
- **Unified Furniture and AV Systems:** Furniture, signage, and AV technology are designed and installed to enhance accessibility throughout the library, creating a cohesive and user-friendly environment.
- **Community-Centric Features:** Dedicated areas for children, teens, and general community use are designed to be adaptable and inclusive, while fostering a sense of belonging.
- **Timely and Collaborative Execution:** While collaborating with Zimmerman Architects and Findorf, we ensured timely delivery and effective execution of all elements.
- **Modern Aesthetic and Functionality:** The design balances contemporary style with practical functionality using modern material sand technologies to create an efficient library space.
